

Privacy Policy

This privacy policy is applicable to the Regnum Christi Slovensko app (hereinafter referred to as the "Application") for mobile devices, which was developed by Občianske združenie RCSK (hereinafter referred to as the "Service Provider"). This service is provided "AS IS" as a free, non-commercial service.

Identification of the data controller

The controller of your personal data is Občianske združenie RCSK, with its registered office at Ľudovíta Fullu 20, 841 05 Bratislava-Karlova Ves, Slovakia, identification number (IČO): 53163966.

What information does the Application obtain and how is it used?

The Application acquires the information you supply when you download and use the Application. Registration with the Service Provider is not mandatory to use the core features (News, Prayerbook, Calendar, Gallery).

However, depending on the features you use, the Application processes specific data:

- **Contact form data:** If you use the in-app contact form, you provide your name, email address, and message. This data is securely transmitted to and stored in the Service Provider's database so we can respond to your inquiry.
- **Push notification tokens:** If you opt in to receive remote news updates ("Upozornenia na novinky"), the Application generates a push notification token via Expo, which is synced to our database to deliver broadcast messages. You can toggle this off at any time, which actively deletes the token from our servers.
- **Local on-device data:** Your custom prayers, favorite prayers, and app settings (such as text size and theme) are saved strictly locally on your device (AsyncStorage). This data is never transmitted to the Service Provider.

The Service Provider may use the information you provided to contact you to provide important information, required notices, or respond to your support requests.

What information does the Application collect automatically?

The Application may collect certain minimal information automatically, including the type of mobile device you use, your mobile operating system, and crash logs to help us improve stability.

Does the Application collect precise real-time location information of the device?

No. This Application does not gather precise information about the location of your mobile device.

Does the Application use Artificial Intelligence (AI) technologies?

No. The Application does not use Artificial Intelligence (AI) technologies to process your data or provide features.

Do third parties see and/or have access to information obtained by the Application?

We only share your information with third parties in the ways described in this privacy statement. The Application utilizes specific third-party infrastructure providers that act as data processors:

- **Expo:** Facilitates app functionality and push notification delivery.
- **Supabase:** Acts as our secure backend database for contact messages and push notification tokens.
- **Google Calendar / Cloudflare / WordPress:** Used solely to fetch public read-only data (events, images, and news articles) displayed in the app.

The Service Provider may disclose user-provided and automatically collected information:

- as required by law, such as to comply with a subpoena or similar legal process;
- when we believe in good faith that disclosure is necessary to protect our rights, protect your safety or the safety of others, investigate fraud, or respond to a government request;
- with our trusted service providers who work on our behalf, do not have an independent use of the information we disclose to them, and have agreed to adhere to the rules set forth in this privacy statement.

What are my opt-out rights?

You can halt all collection of information by the Application easily by uninstalling the Application using the standard uninstall processes for your device. You can also instantly opt out of push notifications by disabling them in the "Settings" tab, which permanently deletes your token from our servers.

What is the data retention policy and how can you manage your information?

We retain personal data only for as long as necessary to fulfill the purposes described in this Privacy Policy. Specifically:

- **Contact form data** is typically retained for no longer than **12 months** after the inquiry is resolved.
- **Technical records** (including crash logs and related server logs) may be retained for up to **30 days** for security and debugging purposes.
- **Push notification tokens** are retained only while you remain opted in to receive them; when you disable notifications in the app, your token is deleted from our servers.

If you would like the Service Provider to delete any user-provided data you have submitted via the Application, please contact us at info@regnumchristi.sk and we will respond within a reasonable timeframe.

GDPR compliance and your privacy rights (Act No. 18/2018 Coll.)

Because the Service Provider operates in Slovakia, your data is protected under the General Data Protection Regulation (GDPR) and the Slovak Act No. 18/2018 Coll. on the Protection of Personal Data. You have the right to:

- **Access:** Request a copy of your personal data.
- **Rectification:** Request correction of inaccurate personal data.
- **Erasure:** Request the deletion of your personal data ("right to be forgotten").

- **Restriction & objection:** Limit or object to how we process your data.

To exercise these rights, email info@regnumchristi.sk. You also have the right to lodge a complaint with the Office for Personal Data Protection of the Slovak Republic (Úrad na ochranu osobných údajov SR).

How does the Application address the privacy of younger users?

The Regnum Christi Slovensko app is designed for the entire Regnum Christi community in Slovakia, including children and young people. Features such as the Prayerbook, Calendar event reminders, and the Gallery are intentionally accessible to younger members of our community.

The Application collects minimal personal data (see above). The Service Provider does not knowingly collect personal data specifically from children. The contact form and push notification opt-in are the only features that transmit personal data to our servers; any personal data submitted through the Application should be provided with a parent or legal guardian's awareness where applicable.

The safety and well-being of all community members, including minors, is governed by our Safeguarding Policy, which is available directly within the app in the FAQ section. We encourage all parents and guardians to read it.

If a parent or guardian has any concerns about how their child's data is handled, please contact us at info@regnumchristi.sk.

How is your information kept secure?

The Service Provider provides physical, electronic, and procedural safeguards (including Row Level Security on our databases and encrypted API connections) to protect information we process and maintain. We limit access to this information strictly to authorized personnel who need to know it to operate or improve the Application.

How will you be informed of changes to this Privacy Policy?

This Privacy Policy may be updated from time to time. The Service Provider will notify you of any changes by updating this page. You are advised to consult this Privacy Policy regularly for any changes.

Effective date: March 28, 2026

How do you give your consent?

By using the Application, you consent to the Service Provider processing your information as set forth in this Privacy Policy. "Processing" includes using local device storage or collecting, storing, deleting, using, combining, and disclosing information.

How can you contact us?

If you have any questions regarding privacy while using the Application, please contact the Service Provider via email at info@regnumchristi.sk.
